

Create a dichotomous key using the beetles below. You should be able to complete it in 17-18 steps. Please write clearly, and use a pencil because you will probably be erasing a great deal.

<p>1</p>  <p>Variegated mud-loving beetle</p>	<p>2</p>  <p>Mycetoid beetle</p>	<p>3</p>  <p>Apricot borer</p>	<p>4</p>  <p>Water tiger</p>	<p>5</p>  <p>Predaceous diving beetle</p>	<p>6</p>  <p>Crawling water beetle</p>
<p>7</p>  <p>Flathead apple borer</p>	<p>8</p>  <p>Red-necked cane borer</p>	<p>9</p>  <p>Cucumber snout beetle</p>	<p>10</p>  <p>Whirligig beetle</p>	<p>11</p>  <p>Ironclad beetle</p>	<p>12</p>  <p>Broad-horned flour beetle</p>
<p>13</p>  <p>Red flour beetle</p>	<p>14</p>  <p>Blind ant-beetle</p>	<p>15</p>  <p>False wireworm beetle</p>	<p>16</p>  <p>White-marked spider beetle</p>	<p>17</p>  <p>Monterey cyprus beetle</p>	<p>18</p>  <p>Drug store beetle</p>
