

# Medical Terminology

## Endocrine System Terms

Name \_\_\_\_\_ Period \_\_\_\_\_

### Part I: Define the Following Word Parts

- |                           |                     |
|---------------------------|---------------------|
| a. adren/o _____          | t. aden/o _____     |
| b. gonad/o _____          | u. pancreat/o _____ |
| c. parathyroid/o _____    | v. pineal/o _____   |
| d. pituit/o _____         | w. -ary _____       |
| e. thym/o _____           | x. thyr/o _____     |
| f. thyroid/o _____        | y. acr/o _____      |
| g. hyper _____            | z. hyp/o _____      |
| h. end/o _____            | aa. ex/o _____      |
| i. -crine _____           | bb. -megaly _____   |
| j. poly _____             | cc. -tropic _____   |
| k. adren/o _____          | dd. -uria _____     |
| l. dips/o (-dipsia _____) | ee. -phagia _____   |
| m. -emia _____            | ff. glyc/o _____    |
| n. gluc/o _____           | gg. -pathy _____    |
| o. -oma _____             | hh. -ectomy _____   |
| p. -tropic _____          | ii. natr/i _____    |
| q. calci _____            | jj. kal/i _____     |
| r. -ism _____             | kk. cortic/o _____  |
| s. -itis _____            |                     |

### Part II: Defining Medical Words (you may use a medical dictionary)

- Cushing's Syndrome \_\_\_\_\_
- diabetes mellitus \_\_\_\_\_
- Addison's Disease \_\_\_\_\_
- diabetes insipidus \_\_\_\_\_
- testosterone \_\_\_\_\_
- estrogen \_\_\_\_\_
- goiter \_\_\_\_\_
- cretinism \_\_\_\_\_
- myxedema \_\_\_\_\_
- steroid \_\_\_\_\_

**Part III: Creating Medical Terms**

1. enlargement of the extremities  
(rw/v/s) \_\_\_\_\_
2. removal of the thyroid  
(rw/s) \_\_\_\_\_
3. disease of the (glands) secreting within  
(rw/v/rw/v/s) \_\_\_\_\_
4. influencing the reproductive organs  
(rw/v/s) \_\_\_\_\_
5. high blood sugar  
(p/rw/s) \_\_\_\_\_
6. excessive thirst  
(rw/s) \_\_\_\_\_
7. tumor in the thymus gland  
(rw/v/s) \_\_\_\_\_
8. condition of low thyroid  
(p/rw/v/s) \_\_\_\_\_
9. enlarged thyroid  
(rw/v/s) \_\_\_\_\_
10. high amount of calcium in the blood  
(p/rw/v/s) \_\_\_\_\_
11. condition of high pituitary (function)  
(p/rw/s) \_\_\_\_\_
12. excessive hunger (eating)  
(rw/s) \_\_\_\_\_
13. removal of the parathyroid glands  
(rw/v/s) \_\_\_\_\_
14. sugar in the urine  
(rw/s) \_\_\_\_\_
15. influencing the adrenal cortex  
(rw/v/rw/v/s) \_\_\_\_\_
