

## Researching a Disease

Research the disease you chose on the Internet, then answer the questions below:

- A. The common name(s) of the disease
- B. The exact scientific name of the organism (viruses will have a designation number)
- C. How do you get the disease (modes of transmission)
- D. How many people get the disease in a given year (infection rate)
- E. Pictures of the organism and people with the disease (make sure they are clean)
- F. Signs and Symptoms
- G. What treatments are available
- H. What is the mortality rate (how many people die each year)

This assignment is to be done on Google Docs. The website to enter this information is on the school's website, and is found below:
